

# Mini Rows Garden

Each Row of this garden contains two answers reading across, except for Rows A and L, which each have one answer reading across the nine protruding squares; it is up to you to determine where the dividing line is between two answers in the same Row. The answers to the Bloom clues are to be placed in the appropriately shaded hexagons, starting in any space and reading either clockwise or counterclockwise. The Bloom clues have been alphabetized, so use the Row answers to determine where to plant each Bloom.
