

## Mini Rows Garden 2

by Nathan Curtis

Each Row of this garden contains two answers reading across, except for Rows A and J, which each have one answer reading across the nine protruding squares; it is up to you to determine where the dividing line is between two answers in the same Row. The answers to the Bloom clues are to be placed in the appropriately-shaded hexagons, starting in any space and reading either clockwise or counterclockwise. The Bloom clues have been alphabetized, so use the Row answers to determine where to plant each Bloom.
