

Snake Criss-Cross

Nathan Curtis (acknowledgements to Craig Kasper)

Answers to the Criss-Cross clues are to be entered into the grid in ordinary criss-cross fashion, one square per letter, reading across or down in a straight line. Answers to the Snake clues are to be entered into the "snakes" indicated by thick lines in the grid, starting at either end of the snake. The Criss-Cross and Snake clues are grouped by answer length and sorted alphabetically; you will need to work back and forth between the two sets of clues to place the answers in the grid.
